SQL • Python • Power BI • Excel • Machine Learning

PROFESSIONAL SUMMARY

Master of Computer Applications (MCA) student with strong fundamentals in Java, Python, SQL, and object-oriented programming. Hands-on experience developing academic projects in database management, Java applications, and machine-learning-based fire detection systems. Seeking an entry-level Software Developer or Backend Developer role to apply problem-solving, programming, and data-driven skills in a professional environment.

EDUCATION

Master of Computer Applications (MCA) (Pursuing)

Dayananda Sagar University, Bengaluru CGPA: 8.04

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** SQL, DBMS
- **Core Concepts:** Object-Oriented Programming (OOP), Basic Data Structures
- **Machine Learning:** Model Training, Data Preprocessing, Uncertainty Handling (basic)
- **Tools & Platforms:** Git (basic), Jupyter Notebook, VS Code, Basic AWS EC2

PROJECTS

Uncertainty-Aware Fire Detection System

Tools: Python, Machine Learning

- Developed a machine-learning-based fire detection system with uncertainty awareness to improve prediction reliability
- Performed data preprocessing, feature extraction, model training, and evaluation on fire-related datasets
- Reduced false positives by incorporating uncertainty estimation into the detection pipeline

Pet Shop Database Management System

Tools: SQL, DBMS

- Designed and implemented a relational database to manage pets, customers, inventory, and sales transactions
- Created normalized tables, primary and foreign keys to ensure data integrity and efficient querying
- Generated reports using SQL queries to track inventory status and customer purchase history

CERTIFICATIONS

- Cisco Certified Support Technician – Networking
- Information Technology Specialist – Data Analytics
- TCS iON Career Edge – IT Fundamentals
