

NANDHINI A

Salesforce Copado DevOps Engineer | Salesforce Release Engineer
nandhiniachoudhanandhan177@gmail.com | +91-9514691359 | Puducherry, India

PROFESSIONAL SUMMARY

Results-driven **Salesforce Copado DevOps Engineer and Release Manager** with 4+ years of hands-on Salesforce platform experience and 6+ years in IT, specializing in **CI/CD pipeline management, Copado deployments (SFP and Metadata Format), release governance, and production support**. Proven track record of reducing deployment time by 30% through streamlined Copado-driven release processes. Experienced in **Git-based version control (Bitbucket), Agile/Scrum ceremonies, sandbox management, hotfix coordination, and post-deployment validation** across enterprise telecom and technology domains.

TECHNICAL SKILLS

DevOps & Release Tools: Copado (SFP & Metadata Format), Copado CLI, CI/CD Pipelines, Git, Bitbucket, VS Code, Salesforce DX (SFDX)

Salesforce Platform: Salesforce CRM, Salesforce Administration, Sandbox Management, Environment Refresh, Agentforce AI Components, Metadata Deployment

Methodologies: Agile, Scrum, ITSM, Incident Management, Release Risk Assessment, Change Management, Post-Deployment Validation

Soft Skills: Cross-functional collaboration, Stakeholder Management, Mentoring, 24/7 Production Support, Continuous Improvement

PROFESSIONAL EXPERIENCE

Trimble Inc. | Salesforce Release Engineer | Salesforce DevOps Engineer

Chennai, India • March 2025 – Present

Manage Copado-driven Salesforce deployments, incident management, and CI/CD optimization in a fast-paced Agile environment, collaborating with clients, product owners, and cross-functional teams to deliver reliable, scalable Salesforce releases.

- Managed end-to-end Copado deployments, streamlining release processes and **reducing deployment time by 30%**.
- Executed end-to-end Salesforce CI/CD deployments using Copado Source Format (SFP) and Metadata Format, supporting production, hotfix, and scheduled releases with minimal downtime.
- Performed VS Code-based deployments, partial commits, and Copado CLI operations, including Agentforce AI component deployments.
- Conducted environment refresh activities across Salesforce orgs, ensuring data consistency and release readiness.
- Actively participated in Scrum ceremonies (sprint planning, stand-ups, retrospectives), contributing to continuous delivery improvement.
- Recognized with Certificate of Appreciation for outstanding delivery of the Trimble Console Platform.

Atos Syntel (Eviden) | Senior Salesforce Release Manager / Administrator

Chennai, India • March 2021 – March 2025

Led Salesforce release management for enterprise telecom domain clients, coordinating multi-environment deployments using Copado and Git-based CI/CD pipelines, ensuring strong governance and continuous improvement across all release cycles.

- Set up, configured, and maintained Copado CI/CD pipelines with Git-based (Bitbucket) version control, enforcing release best practices and governance standards.
- Delivered successful production releases and hotfix deployments with minimal downtime, managing release schedules across multiple Salesforce environments.
- Resolved Git merge conflicts and deployment issues during critical release windows, maintaining system stability.
- Provided 24/7 production support, troubleshooting deployment failures and escalations across multiple Salesforce orgs.

- Conducted release risk assessments, identifying potential issues and defining mitigation strategies prior to go-live.
- Facilitated post-release reviews, analyzing deployment outcomes and driving continuous process improvement initiatives.
- Trained and mentored junior team members on Copado processes and Salesforce release best practices.
- Recognized with Bronze Accolade Award (Eviden/Atos Group) and Spot Recognition Award for successful production release delivery.

Atos Syntel | Salesforce Intern

Chennai, India • February 2020 – August 2020

- Collaborated with development teams on Salesforce application modules, contributing to coding, testing, and quality assurance activities.
- Assisted in identifying and resolving software bugs, improving product stability and reliability.
- Participated in code reviews and supported performance optimization initiatives.

CERTIFICATIONS

- Copado Fundamentals I – Metadata Format
- Copado Fundamentals II – Metadata Format
- Copado Fundamentals I – Source Format (SFP)
- Copado Fundamentals II – Source Format (SFP)
- Salesforce Certified Administrator
- Salesforce Platform Developer I

CORPORATE AWARDS & RECOGNITION

- Certificate of Appreciation – Trimble Inc. | Recognized for outstanding and timely delivery of the Trimble Console Platform.
- Bronze Accolade Award – Eviden (Atos Group) | Awarded for exceptional contribution and involvement in organizational activities.
- Spot Recognition Award – Fun Carnival | Recognized for contribution to organizational engagement activities.
- Spot Recognition Award – Successful Release | Awarded for successfully handling and delivering a critical production release.
