

Jitu Marndi

Bengaluru, IN | jitumarndi0108@gmail.com | +91 8296535894

Profile Summary

Java Backend Developer with 4.1+ years of experience, specializing in building reliable and scalable backend solutions. Passionate about contributing to high-impact teams, driving technical excellence, and supporting long-term organizational growth.

Technical Skills & Tools

- Programming Languages & Core Concepts: **Java (J2EE, OOP, JDBC, Lambda Expressions), SQL**
- Frameworks & Backend Technologies: **Spring Boot, Spring MVC, Spring Security, Spring OAuth 2.0, Hibernate, JPA / Spring Data JPA, Servlet API**
- API Development & Integration: **RESTful API Design, SOAP Services, JSON, JWT (JSON Web Tokens), OAuth 2.0, API Versioning, Swagger / OpenAPI, Postman**
- Databases & Data Management **MySQL (RDBMS, query optimization, pagination), MongoDB**
- Caching & Messaging: **Redis, Apache Kafka**
- Microservices & Architecture: **Microservices Architecture, Service-Oriented Architecture (SOA), Real-time data processing**
- Cloud, DevOps & Deployment: **AWS, Docker, Kubernetes, Apache Tomcat, Maven**
- Testing, Validation & Quality: **JUnit, Mockito, Spring Validation**
- Monitoring & Logging: **Grafana, Log4j**
- Frontend & Web Technologies **HTML, CSS, JavaScript, JSP**
- Tools & Process: **Git, GitHub, JIRA, Agile Methodologies, API Documentation, Payment Gateway Integration**

Work Experience

Java Backend Developer, Exabyte Infotech – Bengaluru, IN

Jan 2022 – Present

- Applied the Spring Boot framework, Spring Data JPA, Hibernate, and RESTful APIs to develop scalable and resilient applications, ensuring robust performance and maintainability.
- Demonstrated expertise in writing clean, efficient code using IntelliJ IDEA, Eclipse, and Spring Tool Suite (STS), adhering to industry best practices.
- Implemented comprehensive software testing strategies, utilizing JUnit for unit testing and Postman for API testing, resulting in high-quality, reliable software.
- Leveraged AWS services to deploy cloud-based applications in testing environments, optimizing for high performance and scalability.
- Showcased advanced proficiency in Java, including Java 8 features, and maintained a solid foundation in Object- Oriented Programming (OOP), leading to well-structured and maintainable codebases.
- Collaborated effectively with development teams using Git and GitHub for version control, ensuring smooth code repository management, and streamlined branching and merging processes.
- Utilized MySQL for efficient database management, optimizing queries for enhanced data processing and retrieval.
- Contributed to cross-functional Agile teams, engaging with clients, and working closely with front-end developers to deliver high-quality software solutions aligned with business goals.
- Developed and integrated secure payment gateway solutions, enabling seamless transaction processing within the company's e-commerce platform.
- Proficient in using Maven for managing project dependencies and creating deployment packages, ensuring efficient and reliable application builds.

Projects

Project: Online Travel Platform – Bengaluru, IN

Apr 2024 – Present

Client: Webjet

Enhanced Webjet's platform, enabling users to search, compare, and book flights, hotels, car rentals, and holiday packages. Focused on optimizing performance, functionality, and user experience. Contributed to competitive pricing and diverse travel options, reinforcing Webjet's position as a leading online travel agency for global customers.

- Developed applications following Spring MVC framework guidelines, ensuring adherence to best practices and design patterns.
- Integrated multiple payment gateways, including PayPal, Stripe, and Razorpay, using APIs and SDKs for seamless transactions.
- Implemented synchronous microservices communication with RestTemplate for reliable service interactions.
- Managed project dependencies and build processes using Maven.
- Utilized RESTful APIs to dynamically generate reports in PDF, CSV, and Excel formats.
- Applied Spring Validation to ensure data integrity and validate user inputs effectively.
- Used Git and GitHub for version control and collaborative development.
- Coordinated with front-end teams for seamless integration while staying current with emerging backend technologies and best practices.
- Integrated backend services with UI components.
- Configured and maintained API Gateway routing, enabled traffic monitoring, and implemented JWT-based authentication using Spring Security to secure microservice communication.
- Tools & Skills Used: Core Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate JPA, Spring Validation, Web Services, Microservices, MVC Architecture, Eclipse, IntelliJ, STS, MySQL Workbench, Postman

Project: Digital Commerce Platform – Bengaluru, IN

Jul 2022 – Mar 2024

Client: Nu Skin (Beauty & Personal Care Products)

Nu Skin's digital strategy centers on enabling cloud-based, scalable, and personalized digital experiences for customers, distributors (called Brand Affiliates), and internal business processes. The company has been evolving its technology stack to support global direct selling and digital commerce.

- Configured Spring Security for user authentication, authorization, and JWT token validation.
- Leveraged Stream APIs and lambda expressions to write concise, readable code.
- Implemented robust exception handling for user-friendly error messages and enabled efficient pagination for managing large datasets.
- Deployed applications on AWS to ensure scalable and reliable hosting environments.
- Applied Object-Oriented Programming (OOP) principles and Object-Relational Mapping (ORM) techniques for effective application development.
- Conducted unit testing with JUnit to ensure code reliability and correctness.
- Tools & Skills Used: Core Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate JPA, Spring Validation, Web Services, Microservices, MVC Architecture, Eclipse, IntelliJ, STS, MySQL Workbench, Postman

Education

B-Tech in Computer Science and Engineering from **Odisha University of Technology and Research**, Bhubaneswar, Odisha

Aug 2018 – May 2022

CGPA - 8.69/10
