PROFILE

Aspiring Software Engineer with strong proficiency in JavaScript, Python, SQL, and modern web development. Experienced in building web applications using React, HTML, CSS, and backend frameworks like FastAPI, and Flask. Skilled in RESTful API integration, Git version control, and developing clean, efficient, and responsive user interfaces. Passionate about building scalable applications and continuously learning new technologies, with a growing interest in cloud computing and full-stack development.

PROFESSIONAL EXPERIENCE

Shri Ram Solutions, Data Science Intern

04/2024 – 06/2024 | Vijayapura

- Performed data analysis using Python and Power BI to extract insights
- Built basic dashboards and reports for business use cases
- Worked with structured datasets and collaborated in a professional team environment

EDUCATION

Master of Computer Applications, Dayanand Sagar University

12/2024 – Present(Aug 2026) | Bengaluru

Bachelor of Computer Applications, BLDEA's A.S Patil College of Commerce

11/2021 – 09/2024 | Vijayapura

SKILLS

Programming: JavaScript, Python, Java, C.

Web/Frameworks: HTML5, CSS3, React.js, Node.js, FastAPI, Flask, Django.

Databases: MySQL, MongoDB, JDBC.

Tools: Git, Power BI, VS Code, Jupyter, REST APIs, Postman. Zoho.

Concepts: OOP, DSA, Cloud Fundamentals, CI/CD, Software Engineering, AI Foundations.

PROJECTS

AI-Driven Speech Clarity Enhancement System | React, FastAPI, Python, Whisper, PyTorch, MySQL 

Built an end-to-end AI system to enhance stuttered and unclear speech using a custom CNN-based audio enhancement model, Whisper ASR, rule-based disfluency removal, AI grammar correction, and text-to-speech synthesis, delivering fluent text, enhanced audio output, and quantitative fluency improvement metrics through a FastAPI and React-based application.

BookMyShow Clone | MERN Stack (MongoDB, Express, React, Node.js) 

Developed a BookMyShow-inspired online ticket booking platform using the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring support for movies, events, and shows, dynamic seat selection, real-time booking confirmation, and a secure admin dashboard for content and event management.

Netshot Athletic Equipment Hub | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB 

Developed a full-stack e-commerce web application for sports equipment and jerseys with user authentication, product catalog, shopping cart, and order management. Implemented an admin dashboard for efficient product and order control.

College App Automation Module | Python, SQL, Dashboards

Selected by the college for technical capability and reliability to work on the College ERP application, where I automated student performance and attendance analytics, built visual dashboards, and enabled parent alert notifications to improve mentor workflow efficiency.

CERTIFICATES

• Cisco Certified Support Technician – Networking

• Oracle Cloud Infrastructure 2025 AI Foundations Associate

• Oracle Cloud Infrastructure 2025 Certified Foundations Associate

• IT Specialist – Data Analytics (Certiport / Pearson VUE)

LANGUAGES

English

Kannada

Hindi

ACHIEVEMENTS

Secured Global Rank ~1600 in TCS CodeVita Season 11 – Round 2 (2025)

Competed in National Level Online Coding Challenge 2025 by Infocom Systems.

INTERESTS

• Exploring New Technologies

• Software Development & Clean Coding

• Problem Solving
